

# NOW YOU CAN ADD LIFE TO YOUR PRINTED MATERIALS WITH [CLICKIT AUDIO!](#)

Imagine having audio to enhance your company's printed materials. With the click of a smart phone, your customer can listen to information about your most important items! Using a simple QR code, you can now have a professional voice talent provide full details for any selected item.

Use Click it Audio to highlight the exciting details describing your  
Restaurant Menu - Office Supplies / Furniture - Hotel/Condo/Apartment  
Ad Specialties - Architectural Supplies  
and MORE!

These are just a few examples of the many applications where sound can back up your words or images on any of your printed materials. The possibilities are endless and only limited by your imagination.

This is a QR code.

Using black squares and dots, it contains information that can be read using your Smartphone camera. By placing our ClickIt Audio QR code on your printed sheet, your readers can scan it with their phone and listen to any information that you want to provide.

Take a moment and think about all the possibilities for your business. Add more information, give better descriptions, or even translate to other languages. This is breakthrough technology to help your business grow!

[Try the QR code above to see how it works.](#)

Let ClickIt Audio give new life and a new audience to all your print projects.
